CPI Nonviolent Intervention is considered the worldwide standard for crisis prevention and intervention training. With a core philosophy that provides for the care and safety of everyone involved in a crisis situation, the program's proven strategies give educators the skills to safely and effectively respond to anxious, hostile, or violent behavior while balancing the responsibilities of care.

The training is among a few select programs recommended to fulfill the requirements of Missouri Law (RSMo 160.263). The program is evidence-based and aligned with PBIS and national standards. Our certified trainer has over 20 years of experience.
