

CharacterPlus Workshop

“11 Principles Framework for Schools Workshop”

On April 20th, Nicole Diehl, Character.org's Schools of Character Executive Director, will lead school leaders through an in-depth exploration of the *11 Principles Framework for Schools*. Each principle will be thoroughly explained, accompanied by practical examples of how to bring them to life within schools. By the end of the training participants will:

- Gain a clear and comprehensive understanding of each principle.
- Learn effective strategies for implementation.
- Discover how to best highlight these principles when applying to become a State or National School of Character.

This training will equip participants with the knowledge and tools needed to strengthen character education initiatives and showcase their schools at the highest levels.
